

Minutes of the Meeting #1

- Notes for Logan:
 - Work on finding crossword APIs
 - Work on attempt #1 at website UI
- Notes for Evan :
 - Cross-reference with Dylan on the wireframe to avoid redundant work
 - Work with Ryan on the Geoguessr basic UI
 - Don't spend too much time researching APIs
 - Capture the panos needed for the data this week
- Notes for Caden:
 - Work on statistics and interfacing with the database
 - Work with Wilson to determine what statistics need to be stored
- Notes for Wilson:
 - Work on Database Model, and send it to TA before implementation
 - Get feedback from TA and team members and update database model accordingly
- Notes for Ryan:
 - Get a basic geoguessr working before making it more complicated
 - Gather the data needed for the locations and images from each location
- Notes for Dylan
 - Setup basic layouts for the wordle and trivia pages
 - Work on the initial javascript for the wordle game
 - Design plan for wordle implementation so database people know what I need them to do for the wordle
